

# Professional Development

Real-time student data in your hands

Training for the WyEd-Fi dashboards has been available in walkthroughs, FAQ's, and live customized training. Growing our on-demand accredited professional development has become a priority.

These Professional Teaching Standards Board (PTSB) approved courses offer numerous ways to utilize WyEd-Fi to accomplish district, school, and classroom goals. ESP has worked in close partnership with Canvas to offer these online courses in an easy-to-use and familiar format throughout the year.

Sign up today and start working toward receiving .5 PTSB credits.

## WyEd-Fi Teacher Course

Created with Teachers and Teacher Leaders in mind

### Key Takeaways:

- Create watch lists of students who need targeted learning.
- Identify students who might be at risk of falling behind or dropping out.
- See tips on using the dashboard to help at a parent-teacher night.

## WyEd-Fi School Admin Course

Created for Principals, Counselors, Curriculum Coordinators, and all other school-level administrative roles

### Key Takeaways:

- Learn how your school's teachers are using the dashboards.
- Easily identify your schools performance at a glance.
- See tips on implementing district-wide goals into your school.

## WyEd-Fi District Admin Course

This future PD course will be for those at the district level. As with all other roles, we now offer customized live training.

### Key Takeaways:

- Learn how to set district goals that can be customized per school.
- Set up an Intervention Catalog for your multi-tiered systems of support.
- Learn how all others in your district use WyEd-Fi.
