

EdDataPortal™

www.EdDataPortal.info

Welcome to the EdDataPortal™, where you can explore the data elements your agency collects and reports about STUDENTS.

- The data elements include requirement status, reporting status, and personally-identifiable information (PII) designation for each element.
- The list of elements is searchable by typing in the search bar, selecting a letter on the alphabet bar, or by filtering on the drop-down menus.
- The Element Profile lets you click on any element to see details including its definition, the collections on which the element occurs, applications and other repositories where the element is used, and reports where the element is published.
- The Detailed List menu shows collection, application, repository, and report information where the elements are used.
- The Export to Excel feature downloads the data elements or any

The image displays the EdDataPortal interface across four devices: a laptop, a desktop monitor, a tablet, and a smartphone. The desktop monitor shows the main dashboard with a search bar, filters for State and District, and a table of Data Elements. The laptop shows a detailed view of an application for '123 Literacy'. The tablet shows a 'District Collections' screen for '123 Mathematics'. The smartphone shows a mobile-optimized version of the dashboard.
